PRODUCT DATA SHEET

Model **ZIL-ST**
ROUND BALANCING DAMPER
(STEEL)
REMOTELY OPERATED

FEATURES:

- Round balancing damper for remote adjustment of airflow feeding air inlets and outlets
- Single, round 20 Ga. blade with V-groove design and ribbed cylinder for increased rigidity
- Nominal diameters from 4" to 20"
- 3/8" square damper shaft in nylon bearings
- Operating range up to 2" w.g. (not full shut-off)
- Damper used with Zipset actuator Model ZSA-1-R (actuator can be factory installed or field installed)
- No blade stops used - eliminates issues with improper synchronization of damper and actuator position during actuator installation
- Actuator anti-rotation bracket installed on all Model ZIL dampers
